Education

National Institute of Technology, Rourkela **August 2024– Present**
Bachelor of Technology in Biomedical Engineering *Rourkela, Odisha*

Jawahar Navodaya Vidyalaya, Niwarsi **July 2022**
AISSCE - CBSE, Science (PCM) (Percentage - 80.20%) *Kurukshetra, Haryana*

Jawahar Navodaya Vidyalaya, Niwarsi **July 2020**
AISSE - CBSE (Percentage - 72.80%) *Kurukshetra, Haryana*

Relevant Coursework

- Data Structures and Algorithms
- Object-Oriented Programming
- Statistics and Numerical Methods
- Natural Language Processing

Projects

FinSight AI — Loan Risk Classification Assistant **Aug 2026**
Python, Pandas, NumPy, Scikit-learn, Streamlit *GitHub | Live Demo*

- Developed a **loan risk classification assistant** using a **Random Forest Classifier** to estimate potential loan risk based on borrower income, credit history, debt-to-income ratio, and loan-related features.
- Built using **Python**, **Pandas**, **NumPy**, **Scikit-learn**, with **data preprocessing**, and **feature engineering** for model training.
- Achieved a prediction **accuracy of 79.46%** on the test dataset, demonstrating reliable model performance.
- Deployed an interactive prediction web application using **Streamlit** with a serialized **Joblib model pipeline** for real-time loan risk prediction and probability estimation.

Word Autocomplete Web Application **May 2026**
Python, Streamlit, Pandas, Pickle *GitHub | Live Demo*

- Developed a **Word Autocomplete** application that provides real-time English word suggestions based on user-entered prefixes using **prefix matching**.
- Built using **Python**, **Streamlit**, **Pandas**, **Pickle**, with a preprocessed English dictionary dataset for fast word retrieval.
- Implemented efficient **prefix-based matching** using Python's **startswith()** method to generate relevant word suggestions.
- Deployed the application using **Streamlit** with a clean interactive interface for instant autocomplete suggestions.

Achievements/Certifications

- **Supervised Machine Learning - Stanford Online & DeepLearning.AI** **July 2026**
  Covered regression and key supervised learning concepts for practical machine learning applications. Certificate
- **Unsupervised and Reinforcement Learning – Stanford Online & DeepLearning.AI** **July 2026**
  Covered clustering, recommender systems, and reinforcement learning concepts for AI applications. Certificate
- **Competitive Programming Profiles:**
  Codechef: Solved 100+ problems on CodeChef, demonstrating strong problem-solving skills across Arrays, Strings, and fundamental Data Structures and Algorithms.

Technical Skills

- **Languages**: Python, C++, HTML/CSS
- **Operating Systems**: Windows
- **Developer Tools**: VS Code, Git, GitHub, Jupyter Notebook, Google Colab
- **Technologies/Frameworks**: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Streamlit

Extracurricular Activities

Leadership Experience **November 2025**
Technical Coordinator *Innovision'25*

- Coordinated **technical fest activities**, managing **event logistics**, volunteers, and on-site operations to ensure smooth execution.
- Collaborated with organizing teams, supported **participant engagement**, resolved on-site challenges, and demonstrated strong **leadership**, **teamwork**, and **organizational skills**.
